projects

Project 1: [WWW.Walk & Talk Mobile.com](#)

Technologies used: HTML, CSS, JavaScript

Role: Developer

Outcome:

I Developed a secure and user-friendly Web Application for Walk & Talk Mobiles, incorporating a robust user authentication system. The application caters to desktop users, allowing them to login, view their username, and logout seamlessly. The interface is designed to dynamically adjust based on the window size, ensuring an optimal user experience on various screen sizes. Additionally, for a mobile users a streamlined login process has been implemented, specifically tailored for smaller screen size to enhance accessibility and usability.
