project

Project link:

WWW.Walk & Talk Mobile.com

Technologies used:

- HTML
- CSS
- JavaScript

Role: Developer

Outcome:

Designed and implemented a secure and user-friendly web Application for Walk & Talk Mobile with a user authentication system. Desktop users can log in, view their username, and log out, while the interface adjusts dynamically based on window size. For mobile users, there's a streamlined login process designed for smaller screens.

Personal Skills

- Time Management
- Communication
- Team work
- Quick Learner

Languages

- English
- Tamil
- Sourashtra

Cascading Style Sheet

- Proficient in **CSS styling** and **layout techniques**.
- Experience with **CSS box model** and **positioning**.
